Commissioner for Patents

The examiner received an internal query from the publishing department regarding a discrepancy between the OATH and the BIB DATA Sheet (eg. the Oath was signed by 3 inventors while the BIB Sheet had only two). The inventor known as Harry Tong was missing from the BIB Sheet.

The examiner has added Mr. Tong since he was an original signer of the Oath and is believed to be a patentee of this patent.

If this is incorrect, the assignee should contact the examiner and/or publishing department directly.

Thank you.
